T.P.A.PEOPLE

Will Ask Congress to Make Important Amendments to the Elkins Bill.

COLONEL HARWOOD ACTIVE

He Will Write a Letter to the Official Organ Asking Cooperation of All Members."

The T. P. A. people have decided to make a strenuous fight before the com ing session of Congress to have the Elkins bill amended so as to give effect to the decisions of the Interstate Commerce Commission against discriminations in tariff rates between different locali

Colonel John S. Harwood, of this city, chairman of the Legislative Committee, has written the following to the News Letter, of St. Louis, the official organ of the organization:

Dear Sir.—At a meeting of the Executive Committee of the Interstate Commerce Law Convention, held in Chicago in June last, it was decided to resume the effort, at the coming session of Congress, to secure legislation giving effect to the decision of the Interstate Commerce Commission by enacting the first section of the bill which was before the last Congress, known as the "Revised Elkins Bill," this section having been stricken out, together with the second section, when the bill was reported by the Senate Committee.

The first section provided that the commission shall determine upon full hearing of all parties in interest, what change in a rate or practice found to be unreasonable or discriminative, shall be made to correct the wrong, such determination to become immediately operative.

the was reported by the Senate Committee.

The first section provided that the commission shall determine upon full hearing of all parties in interest, what change in a rate or practice found to be unreasonable or discriminative, shall be made to correct the wrong, such determination to become immediately operative, subject to review by any Circuit Court of the United States having jurisdiction. The second section, in relation to which this committee maintained a neural attitude, authorized the pooling of traffic or earnings and the formation of traffic jassociations, under the supervision of the commission. It is not the purpose of the committee to revive this section.

the commission. It is not the purpose of the committee to revive this section.

[III, INADEQUATE.]

The Elkins bill, as enacted at the last session of Congress, relates wholly to the prevention of discrimination between individuals by departure from published tariff rates, or by offering or granting soliciting or accepting, any rebate or concession therefrom. It contains no provision for the prevention of unjust discrimination in tariff rates between different localities or sections, or in the classification of freight, or between carload and less than carload rates, nor for protection against the continuance of rates unreasonable in themselves. These abuses can be remedied only by investing the commission with the authority prescribed in the first section of the bill previously mentioned; and it is the belief of this committee that by concentrating its efforts uppn this one provision, with the active co-operation of the various commercial bodies of the country interested in the movement, its early enactment may be secured.

LUIGED TO WORK.

As chairman of the National Legislative Committee, I beg leave to suggest that the members of the Travelers' Protective Association interview representatives in Congress from the district or districts comprised in their membership, and Benators from their Bate, prior to their departure from their homes for the capital, in order to enlist their active support of the desired legislation. I would also recommend the adoption of resolutions by every Post ursing such legislations, to be forwarded each Senator and Representative from your State, prior to the assembling of Congress, which it is now understood will take place early in November.

WILL PRAY FOR THE MISSIONARIES

Next Sunday has been named for a united supplication by the Methodiska of the State for the Rosebud missionaries, teachers and pupils in Mexico hemmed in by the yellow plague.

Every letter received here brings discouraging news. The pestilence is slaying its victims on every hand, and there are now signs that it has followed the missionaries from Monterey to Saltillo, where several deaths have just occurred. The Instituto Laurens, at Monetery, is still closed, and the mission is beginatill closed, and the mission is begin-ning to suffer financially. Up to this time the Virginia missionaries have succeeded in escaping the pellow peril. Professor Campbell, however, is unwell with malaria. He has just sent to Rich-mond a letter addressed to the Rosebuds mond a letter addressed to the roseout, of the State. It gives an account of the work of the plague and of the inconveniences to which the missionaries are exposed. He concludes by asking the prayers of the Rosebuds for his people.

MOLLY WHITE WAS SENT TO GRAND JURY

Two Cases Against Her Disposed of-Another Comes Up To-day.

Justice John disposed of the Molly this morning.

In addition to this, eight women living at the house were fined St each as disor-derly persons, and two of them. Mattle Newman and Scott Fountain, were placed in the same class with Molly White and sent on to the jury as accessories to the

Mr. L. O. Wendenburg represented the women, and Commonwealth's Attorney Richardson was present to assist the court. Ball was granted.

The story of the robbery was told in yesterday's paper. Hornley came to town from his home at Fort Lee. He went to the White house, and while there claims that he was "doped" and robbed of \$250 which he had sewed up in an inside pocket. Afterwards he, in company with one of the women, known to the police, were driven in a carriage by a well known colored hackman named W. D. Johnson, out to a dark spot in Chesterfield county, just beyond Manchester, where they both got out.

The driver feared foul play and reported the case to the Manchester police, and by them it was reported to Capitaln Shinberger, who got the co-operation of Capitaln Tomlinson.

In the Police Court Johnson said he was called to the White house, and that Molly White gave him \$5 to drive the man to the place in Chesterfield county, and that Mattle Newman and Scott Fountain helped put the man in the carriage. Then the other woman got in, and he drove them away, not thinking at the time that there was anything wrong.

Hornley, on the stand, appeared like a man dazed, and he could not give a wery clear story. He recognized Molly White as the woman who gave the driver the money, and he gave a fair description of the woman who went from the

This is the second time within the past few years that the White house has become prominent in the eyes of the public owing to large robberies alleged to have been committed there.

About two years ago a Petersburg merchant came to Richmond with about \$?,000 in his pockets. He went to this house and later missed his money and complained to the police that he had been robbed by one of the inmates. The case went to the grand jury. Captain George D, Wise and Mr. Harry Glenn represented the woman, and she was discharged. She was warned, however, to charged. She was warned, however, to leave the city, never to return. She remained away two or three weeks and then came back, and was among those arrested and fined yesterday morning. Captain Shinberger said last night that it was his fixed intention of wiping out of existence all such houses in his section. Molly White has been living at the place about twenty-five years, and has accumulated considerable real estate in various sections of the city.

While Hornley is in no serious condition, he is still feeling the effects of the drug, whatever it may have been, and

This woman is missing. The police, under the direction of Captain Shinberger and Captain Tomlinson are making every effort to locate her.

It is quite likely that she came back from the point in Chesterfield on the electric car and afterwards took a train out of the city.

THE LEGISLATURE.

Body to Convene Here in Adjourned Session Tuesday.

The General Assembly of Virginia will reconvene next Tuesday at noon to dispose of the business of the long term following the adoption of a new State Con-stitution. The report of the Revision stitution. The report of the Revision Committee on the work of revising the statutes will be submitted and will occupy almost the entire time of the session. Little or no new business will come up, and that little will be legislative designed to remedy defects in existing statutes or to supplement those framed during the past eighteen months. It is probable that the Mann liquor law will be amended or that amendment will certainly be attempted. Then, too, the pure elections law must be perfected, and it is not improbable that the keneral primary bill, offered by Messrs. Barksdale and Keezell, will be pressed for passage. Few appropriations are expected to be made. The general impression is that the session will last almost up to Christmas.

This is the old General Assembly, and not the new one just elected that is to convene next Tuesday. The new Assembly will get together on the second Wednesday in January, 1904, and its session will be limited to sixty days. There will probably be but this one session during the ensuing two years. The new Assembly will elect a successor to Senator Daniel, or rather re-elect the Senator, for that is absolutely assured.

NEW HOUSES FOR

LEE DISTRICT

It was learned yesterday that the foundations will be started to-day for eight handsome homes on Grace, between Meadow and Allison Streets.

These are in addition to the eight three

story dwellings now under construction near Grace and Allen Avenue. The city is now putting the grass plots on Monument and Allen Avenues in beautiful condition, and it is expected that many handsome homes will soon be erected upon these desirable avenues. The sidewalk on south side Monument Avenue just west of the monument is now being laid with granolithic, which will add greatly to the convenience of the residents of that section. Nothing definite has been settled about the Davis monumenn, but it looks now as if it will be placed in Lee District.

No action has been taken about the fence around the monument, an appropriation of \$500 having been made at the last Legislature, but it is expected that a very much larger appropriation will be made next month, and that soon ufter the first of the year a handsome fonce will be erected.

Twelve electric lights have recently been placed at different points in the district, and this adds greatly to the convenience of the residents.

HIGH CLASS DRUGGISTS

AND - OTHERS.

The better class of druggists, everywhere, are men of scientific attainments and high integrity, who devote their lives to the welfare of their fellow men in supplying the best of remedies and purest medicinal agents of known value, in accordance with physicians' prescriptions and scientific formula. Druggists of the better class manufacture many excellent remedies, but always under original or officinal names and they never sell false brands, or imitation medicines. They are the men to deal with when in need of anything in their line, which usually includes all standard remedies and corresponding adjuncts of a first-class pharmacy and the finest and best of toilet articles and preparations and many useful accessories and remedial appliances. The earning of a fair living, with the satisfaction which arises from a knowledge of the benefits conferred upon their patrons and assistance to the medical profession, is usually their greatest reward for long years of study and many hours of daily toil. They all know that Syrup of Figs is an excellent laxative remedy and that it gives universal satisfaction, and therefore they are selling many millions of bottles annually to the well informed purchasers of the choicest remedies, and they always take pleasure in handing out the genuine article bearing the full name of the Company—California Fig Syrup Co.—printed on the front of every package. They know that in cases of colds and headaches attended by biliousness and constipation and

They know that in cases of colds and headaches attended by billousness and constitution and of weakness or torpidity of the liver and bowels, arising from irregular habits, indigestion, or over-eating, that there is no other remedy so pleasant, prompt and beneficial in its effects as Syrup of Figs, and they are glad to sell it because it gives universal satisfaction.

Owing to the excellence of Syrup of Figs, the universal satisfaction which it gives and the immense demand for it, imitations have been made, tried and condemned, but there are individual druggists to be found, here and there, who do not maintain the dignity and principles of the profession and whose greed gets the better of their judgment, and who do not hesitate to recommend and try to sell the imitations in order to make a larger profit. Such preparations to recommend and try to sell the imitations in order to make a larger profit. Such preparations sometimes have the name—"Syrup of Figs"—or "Fig Syrup" and of some piratical concern, or fictitious fig syrup company, printed on the package, but they never have the full name of the Company—California Fig Syrup Co.—printed on the front of the package. The imitations should be rejected because they are injurious to the system. In order to sell the imitations they find it necessary to resort to misrepresentation or deception, and whenever a dealer passes off on a customer a preparation under the name of "Syrup of Figs" or "Fig Syrup," which does not bear the full name of the California Fig Syrup Co. printed on the front of the package, he is attempting to deceive and mislead the patron who has been so unfortunate as to enter his establishment, whether it be large or small, for if the dealer resorts to misrepresentation and and deception in one case he will do so with other medicinal agents, and in the filling of physicians' prescriptions, and should be avoided by every one who values health and happiness. Knowing that the great majority of druggists are reliable, we supply the immense demand for our excellent remedy entirely through the druggists, of whom it may be purchased everywhere, in original packages only, at the regular price of fifty cents per bottle, but as exceptions exist it is necessary to inform the public of the facts, in order that all may decline or return any imitation which may be said to them. If it does not hear the full paraget the Company any imitation which may be sold to them. If it does not bear the full name of the Company-California Fig Syrup Co.—printed on the front of every package, do not hesitate to return the article and to demand the return of your money, and in future go to one of the better class of druggists who will sell you what you wish and the best of everything in his line at reasonable prices.
